NeuroAffective Touch Training

DESCRIPTION

The Foundation Training is nuanced, comprehensive, and groundbreaking, going beyond the psychotherapy trainings and bodywork programs available today to offer a truly integrated body-mind approach. The two parts of the training build sequentially, beginning with a deep dive into the psychobiology of touch and how to use touch in a way that allows the body to lead, rather than “doing to” the body.

Throughout the program, you will receive training in body-centred techniques to work bottom-up with implicit procedural behaviour, posture, and movement, as well as top-down with trauma-based thoughts, beliefs, and identifications, fostering multidimensional growth and expansion for the people you work with.

A Workshop on the NeuroAffective Relational Model -NARM

DESCRIPTION

This unique workshop will be held by Tove Mejdahl, psychologist/specialist, supervisor in clinical psychology; SEP and main NARM teacher in Denmark. NARM is a trauma informed method working with relational, developmental and attachment traumas in an effective and innovative way. This method gives us the opportunity to understand how our early experiences in life create lifelong behavioural patterns. NARM helps us break these old patterns, thus increasing our capacity to be authentic and present in our relating, in loving as well as in therapeutic relationships. In addition to general NARM practices, Tove will also share her experience in applying NARM to couples' therapy. Target group: SE Practitioners, SE students and other professionals working with clients.

Trauma Through a Child's Eyes (With Maggie Klein)

training based on the Somatic Experiencing method

DESCRIPTION

18-hour in-person training presents how to combine the basics of trauma treatment using the Somatic Experiencing® method with art, movement, play and breath work to teach children sensory awareness, the ability to track sensations and balance their autonomic nervous system.

By referring to concepts and knowledge in the field of SE and with the help of art classes and games, participants will learn how to increase emotional regulation, release and complete unfinished defense reflexes, as well as restore a sense of security, attachment skills and healthy social engagement.

For more information visit <https://psse.net.pl/trauma-oczami-dziecka-maggie-kline/>

WHO CAN JOIN?

The workshop is useful for professionals working with children, teachers, parents who want to integrate basic SE concepts when working with children, as well as for those who want to deepen their understanding of working with the inner child in adults. The form of classes is a combination of lectures, films, empirical classes in groups and questions and answers.

Registration is closed, the workshop is full.

About us

This letter is an initiative founded by two SEPs, Kasia and Damian.

During the EASE GA gathering in Edinburgh the idea of “news letter “was born.

Who are we?

Kasia is a SEP, Assistant, psychologist and therapist living and working in Poznan Poland , she is part of Polish SE Association and a member of Ethics Committee of EASE.

Damian (originally Polish) is an actor, body worker, SEP, Assistant in training, on a board of SEAUK,

We decided to help with connecting and transferring informations about post graduated trainings , events, webinars , circles ,inspirations, social gatherings etc, between associations, organisers and trainers and so everyone can have an access to those informations and we would like to support each other to connect and thrive .

19

We would like to invite you to join our project .

We would like to ask each Association and Organisers to delegate one person responsible for bringing up information connected to your group .

Also we invite trainers to join us .

Here is our email where you can reach out if you want us to share informations in Info Platform Ease:
